Section 3: Hazards Identification

Emergency Overview: (Acute and Chronic)

Potential Health Effects:

Eye: This product may cause irritation to the eyes.

Skin: This product may cause irritation to the skin.

Inhalation: Exposure via inhalation not likely. High vapor or aerosol mist concentrations may be irritating to the nose, throat and upper respiratory tract.

Ingestion: Ingestion may cause transient irritation of throat, stomach and gastrointestinal tract. Ingestion of large amounts may produce gastrointestinal disturbances including irritation, nausea, and diarrhea.

Chronic effects of exposure: Repeated overexposure may result in delayed kidney injury.

Section 4: First Aid Measures

If on Skin: Immediately take off all contaminated clothing. Wash contaminated clothing before reuse. For skin contact, flush with large amounts of water. If irritation persists, get medical attention.

If in Eyes: Immediately flush eyes with lots of running water for 15 minutes, lifting the upper and lower eye lids occasionally. If irritation persists, consult physician.

If Swallowed: Do not induce vomiting. If ingestion of a large amount does occur, seek medical attention. Never give anything by mouth to a victim who is unconscious or is having convulsions.

If Inhaled: If symptoms are experienced, remove source of contamination or move victim to fresh air. If symptoms persist, get medical attention. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen. Seek medical attention.
